TENNESSEE SENATE RATIFIES SUFFRAGE AMENDMENT

NASHVILLE, TENN., Aug. 16.—The Tennessee Senate has ratified the woman suffrage amendment. The vote was 25 to 4.

The first action taken was to table a minority report of the Senate committee which urged no action on the resolution and offered as a substitute for the favorable majority report which recommended adoption. The vote to table the minority report was 23 to 10. This was the first definite indication of the strength of either side. Seventeen votes were necessary for ratification by the Senate.

There was not an inch of available space in the galleries unoccupied when the Senate convened. Joint action by the House and Senate had been urged for, for the House committee announced that it would not submit its report until Monday. Leaders expected that a vote would be reached in the Senate before session was over.

SUGAR TAKES TUMBLE IN NEW YORK.

NEW YORK, Aug. 16.—Heavy decreases in the sugar market, foreshadowed by movements during the last few days, took place recently.

One large dealer reduced his list price on fine granulated from 21 to a fraction more than 17 cents a pound.
Raw sugar sold on a basis of 13.04 cents, which was 10 cents a pound less than the high level of three months ago.

FRENCH SUPREON GAINS WORLD FAME.

NEW YORK, Aug. 16.—Prof. Serge Voronoff, the French surgeon who jumped into worldwide fame when he performed his experiments in transferring the interstitial glands of a monkey to aged men had been successful in restoring youthful vigor, arrived in New York Thursday.

The French surgeon is to be the guest of the Medical College at Columbia University.

Professor Voronoff came here from Chicago, where, Monday, he performed his celebrated operation in America for the first time, using thyroid glands.

Four hundred of Chicago's foremost physicians and surgeons watched the transference of glands. Two dead dogs were used.

ENGLISH PREMIER GEORGE RECAPITULATION OF STATES' CONDEMNNS FEDERAL MOVEMENT

LONDON, Aug. 16.—Premier Lloyd George has given to M. Krasin and M. Kameneff, Bolshevik emissaries here, an unequivocal assurance that he will not stand back of the French recognition of General Wrangel as the de facto Government in Southern Russia.

He intends to make immediately a public statement to that effect, condemning the French movement as gravely imperilling the impending peace between Poland and Russia, inasmuch as it is likely to mislead the Poles into believing that the allies secretly are bent on an anti-Soviet policy.

The crisis is sufficiently grave to cause the King to postpone his departure for Scotland and Lloyd George to defer his vacation, which he intends taking in Switzerland.

The Premier is represented as feeling deeply offended at Premier Millerand's disregard for diplomatic etiquette, which Whitehall considers a calculated insult in view of his speech in the House of Commons.

The wires between Downing street and the Quai d'Orsay were busy the entire day in an attempt to arrange another meeting between the two Premiers for the coming week-end.

The staggering coup of France has deprived her of the support of the London Times, which hitherto has been the only paper to back her post-war belligerency. In an editorial to-day it warns the French Government against overtaxing the strength of the allies.

Other papers unqualifiedly predict the end of the alliance, warning France that she must either follow Lloyd George's peace policy or be left to face the Soviets single-handed, with England withdrawing all forms of commercial and financial co-operation.

COX OPENS SPEAKING CAMPAIGN IN OHIO

CAMP PERRY, O., Aug. 16.—Honorable prevention of war by "the attainment of reason rather than of force" was urged by Governor Cox here in an address opening the Democratic Presidential nominee's national speaking tour.

Governor Cox did not make the League of Nations the paramount issue of the Democratic campaign as declared in his acceptance address, the text of his speech at the national rifle contests, but he emphasized the toll of the war and said that the peoples of the world now seek peaceful modes of settlement.

"I recognize," he said to an audience of National Guardsmen, regular soldiers and civilians, "that in a sense you are assembled here for purpose of increasing the efficiency of our military strength, and yet I am convinced that the great mass of our soldiers is united in purpose and prayer to prevent wars in the future, if it can be honorably done."

"There will always be a National Guard in the States, if for no other reason than domestic defense, and the military arm of the Federal Government will be maintained, but the hope that vast expenditures for armaments are a thing of the past, possesses every home in America, while the common impulse that moves the great mass of people world-wide is inspired by the vision of peace and the settlement of controversy by the arbitration of reason rather than by force."

Asks Justice To Soldiers
Praising the National Guardsmen's record in the war, Governor Cox said many had failed to receive commissions won by bravery, and declared that belated justice now should be accorded them.

Governor Cox elaborates on a theme in his acceptance speech, government aid to ex-service men, declaring many met obstacles on returning to civil life. These, he said, the government should assist wherever possible.

The Governor also cited the value of American marksmanship in the nation's history, and expressed the hope that America would continue "a nation of sportsmen, devoted to the propagation of wild life and building health and sinew in the open."

The occasion of Governor Cox's address was the presentation of the Governor's Cup in the national rifle shoot. He returned to Columbus to-night and will make his next speech-making foray on Saturday at Wheeling, W. Va.

Expenditure in war of lives and treasure was stressed by the Democratic candidate in his plea for peaceful relations between nations.

"The cost to the United States," he said, "was more than one million dollars an hour for over two years. The total expense of twenty-two billion dollars was almost equal to the total disbursements of the United States Government from 1791 to 1918. It was sufficient to have run the Revolutionary War for more than one thousand years at the rate of expenditure which that war involved. The army expenditures alone, so experts claim, are a near approach to the amount of gold produced in the United States from the outbreak of the European War, and yet the United States spent only about one-fifth of the expenditure of the allied side."

MOYER ASSUMES DUTIES AS WARDEN.

FRANKFORT, KY., Aug. 16.—William S. Moyer, prison expert and former warden of Sing Sing and the Atlanta Federal prison, became warden of the State Reformatory here Thursday evening. The retiring warden, L. R. Davis, who has been in charge since March, probably will be appointed to a position under the State Tax Commission. Mr. Moyer resigned as head of the prison branch of the temperance and welfare work under a board of the Presbyterian General Assembly to accept. He said he will make no changes in the personnel except as it may become necessary.

PROPERTY VALUATION

FRANKFORT, KY., August 16.—Kentucky's total assessed value of property for this year is \$1,774,381,425, a falling off of \$13,700,052, as compared with last year. There is an increase of \$77,975,416 in lands, mineral rights, town lots and improvements. The decrease is due largely to the fact that the Lilly Flagler Bingham estate, last year assessed \$103,000,000, and this year at \$89,299,948. COMMISSIONER WALLIS STATES NEW POLICY.

NEW YORK, August 16.—The slogan of Ellis Island immigration officials henceforth is to be: "Speed the incoming guest—policy." This decision recently was announced by Frederick A. Wallis, newly appointed Commissioner of Immigration, after he had played the role of an immigrant for one night and had passed long and tiresome hours on the island waiting for a barge for New York.

So convinced is Commissioner Wallis that immigrants are being needlessly detained on Ellis Island after they have been passed into this country by immigration officials and that other reforms are urgently needed that he intends to move to the island from his New York home and devote both days and nights to his new work.

Officials of the island, according to Mr. Wallis, are adherents of the theory that an immigrant's time is worth nothing at all.

"I am trying," Mr. Wallis said, "to break up the bad habit of detaining immigrants to Ellis Island after they have been admitted to the country. Ever since I took up my new duties I have noticed great flocks of weary immigrants sitting for hours in the crowded railroad rooms of the island. I have found immigrants sitting in these rooms who had been there all day long having passed by our inspectors early in the morning."

"Last night I became an 'immigrant' myself and took my place on one of the benches in the railroad room. It was a long time before an attendant announced that a barge had come to take us to the railroad station. I fell in with a group that was going to Weehawken to take a train and some of them told me they had spent a long and tiresome day in the crowded rooms."

In the work of getting the immigrants through and out of New York swiftly, Commissioner Wallis will enlist the aid of the railroad companies.

"Immigration," he explained, "no longer pours itself out into New York City, or into the crowded metropolitan centers of the East. It now flows out across this big country to smaller towns; to the mines or mills. It is highly important for us of the immigration service and those working with us—the railroad people, for example—to recognize this increasing tendency and to make as good an impression as possible on the incoming workers."

THE BOURBON WOMAN'S CLUB PLEASANTLY ENTERTAINS

The Bourbon County Woman's Club, which was formally organized last Monday afternoon, held a called meeting Wednesday afternoon, at the home of Miss Lucy B. Simms, with a large attendance. The President, Mrs. Owen Davis, presided. The first order of business was the consideration of the constitution which was submitted by the committee composed of Miss Mary Fithian Hutchcraft, Mrs. J. Walter Panye and Mrs. R. Swango. The constitution was adopted as read by Miss Hutchcraft, with a few minor changes.

The question of Departments was next considered, resulting in the selection of three: (1) Literature, (2) Community Service, and (3) Music and Art.

The women present indicated their choice of a department in which to work, and adjourned for discussion and organization. The department having the largest representation was the Community Service, the scope of which is to include the study of all questions relating to civics, the first subject to be considered to be citizenship. This department elected for its chairman Miss Lucy B. Simms; vice-chairman, Mrs. Wm. G. Talbot; secretary, Miss Mary Spears, and will meet next Wednesday afternoon at 2:30, at the home of Mrs. W. G. Talbot, on Duncan Avenue. The Department of Music and Art will include Gardening, and will meet with the chairman, Mrs. F. P. Lowry, next Wednesday, at 2:30 p. m., when the organization and course of study will be completed.

The Department of Literature will include Current Events and Dramatics in addition to a general topic. An organization of the Department was not effected.

After a talk by Mrs. Sutherland, it was voted that the Bourbon County Federation of Clubs and all the study clubs of Paris disband, the members as far as possible, coming into the new club. Also that all money in the old Federation treasury be handed over to the Community Service Department, except the \$285 which was set apart for the purchase of name plates for the memorial trees planted in the Paris cemetery in memory of the Bourbon county boys who lost their lives in the service during the late war. During the meeting Wednesday, Miss Simms served orange ice and angel food cake.

UNITED STATES APPROVES RUSSIAN RECOGNITION

WASHINGTON, Aug. 16.—Committed to a program of war to the death against Russian Sovietism, the United States Government today is approving of French recognition of the de facto Government of General Baron Peter Wrangel in Southern Russia.

While State Department officials refused to make any admissions concerning action by the French Government, which has caused an international sensation, official confirmation of its action has arrived in Washington.

Action by the French Government in recognizing General Wrangel, regarded at first as at variance with the note addressed by Secretary of State Colby to the Italian Ambassador outlining American policy, is not regarded in official circles.

While it is recognized that the position of the French Government might be made more clear if its recognition of General Wrangel was accompanied by an expressed determination not to aid in breaking up Russian territory, still it is regarded as a means to an end. That end is the overthrowing of the Soviet Government, to which the United States also is committed.

While there is no evidence of knowledge on the part of the French of the Colby note in advance, yet it is considered barely possible some intimations of its contents may have been obtained by the French Government.

In any event the combination of the American note, French action and its tacit approval by this Government is looked upon as an effective veto upon any possible attempts on the part of the British Government to deal with Sovietism.
